122	1	Cheese Slicing & Packing Line The Cheese is initially cut into either a stack or single in the Dixie Union slicer and is then transferred to a Meister buffer machine. The Meister unit controls the speed of the line by releasing the cheese stacks/singles at a rate of 45 portions per minute. Each portion is then transferred to the Cryovac flow wrapper and tray applicator. Initially the inverted tray is placed on top of the cheese portion and then wrapped in plastic film. The tray is then rotated 180 degree so that it is the right way up. The tray then passes through a three stage Cryovac heat/shrink tunnel and then on to the three labelling machines. These apply the barcode, price and manufacturers name. This line includes the following: Dixie Union Cheese Slicer Model: SL484 Capacity: 450 - 500 slices/minute Maximum Block Size: 900 x 180 x 120mm (l x w x h) Slice Thickness: 2 - 50mm Cryovac Tray Applicator & Flow Wrapper Model: CJ50 BDF Capacity: 45 - 50 pieces/minute (portions) Foil Width: 250 - 500mm Cryovac Three Stage Shrink Tunnel Model: CJ51 Max Temp: 300 C Tunnel Speed: 4 - 25 metres/minute Meister Product Buffer Meister Product Rotator Alpha Labellers Bizerba Labeller Condition: Used This lot is located in Lockerbie (Loading 850.00)	35,000.00

Article 3. The Auction and Use of the Website

- 3.1 Troostwijk acts as auctioneer at all Auctions and sells the Lots as agent on behalf of the Seller. The Purchase Agreement is entered into between the Purchaser and the Seller.
- 3.2 Troostwijk reserves the right to cancel an Auction, to terminate an Auction earlier than reported on the Website or to extend an Auction. In case of a technical malfunction of the Website, causing it to be not completely accessible and/or inaccessible to Users, Troostwijk has the right to extend the Auction by 24 hours.
- 3.3 The User states by his Registration that he is familiar with and agrees with the special circumstances of an internet auction and with the technical imperfections that can arise. Troostwijk denies any liability for whatever damage that may arise in any way, directly or indirectly,

www.TroostwijkAuctions.com

including but not limited to the damage arising from the User's use of the Website, unless there has been deliberate or conscious negligence by Troostwijk. More particularly, Troostwijk accepts no liability for any damage whatsoever that arises in any way by or from:

- (i) actions performed by the User that may have been inspired by the information placed on the Website;
- (ii) the impossibility of using the Website (completely) and/or another malfunction in the Website or the supporting system;
- (iii) the Lots not meeting the specifications as reported on the Website;
- (iv) the fact that the information on the Website is incorrect, incomplete or out of date;
- (v) errors in the software of the Website and/or the supporting system;
- (vi) the unlawful use of systems, including the Website, by a third party;
- (vii) actions by the Seller after the User has concluded a Purchase Agreement with the Seller.

Article 4. Organization of the Auction

- 4.1 The organization, preparation and carrying out of the Auction is to be done by Troostwijk.
- 4.2 Without having to give any reason, Troostwijk has the authority before or during the Auction:
- (i) not to recognize a Bid as such;
 - (ii) to exclude one or several Users from the Auction;
 - (iii) to collect objects into Lots, to split Lots or to remove Lots from the auction;
 - (iv) to repair mistakes made by Troostwijk in offers and/or allocations, without the User being able to make use of these errors and/or derive any rights from them;
 - (v) to take other measures that are, in its judgment, necessary.
- 4.3 Troostwijk has the authority to set as a condition for participation in certain Auctions and/or bids on certain Lots that a User provides a bank guarantee or other form of security (such as a performance bond) beforehand to the satisfaction of Troostwijk.
- 4.4 The judgment of Troostwijk concerning that which has occurred during the Auction is binding.

Article 5. Bids; Purchase Agreement

- 5.1 The User can place a Bid on the Website on one or several Lots. Every bid is unconditional, irrevocable and without reservation. Troostwijk and/or the Seller are entitled to reject bids without giving any reason. Bids are placed exclusive of Mark-Up and V.A.T, which shall be added to the Hammer Price and payable by the Purchaser as part of the Purchase Sum. Troostwijk and the seller are authorized to place bids on behalf of third parties.
- 5.2 If a Lot is also brought to auction together with one or several other Lots as a combination, this will be reported on the individual page of the Lot. In that case, bids can be placed first on the individual Lots of the combination and after the closing of all individual Lots, bids can be placed on the combined Lot. Individual Lots can be Allocated only if the total amount of the highest sustainable bids on the individual lots is higher than the highest sustainable bid on the combination. The combination will be Allocated solely if the highest sustainable bid on the combination is higher than the total amount of the highest sustainable bids on the individual Lots.
- 5.3 Bids can be placed in the form of a 'static bid' or 'proxy bid.' In a static bid, the User places a bid in the form of a fixed amount per Lot. In a proxy bid the User indicates the maximum price he is prepared to pay for the Lot. The auction system sees to it that, after outbidding by a third party, the minimally possible higher bid is introduced in the name of the User, as long as the maximum indicated by the User has not been reached. A proxy bid can be eliminated by the User solely by placing a static bid that at that moment is the highest bid.
- 5.4 The Purchase Agreement arises through Allocation. Allocation is generally given to the User who has made the highest Bid. By applying article 5.1, through conditions for Allocation as included in the Specific Terms and Conditions of the Online Auction or for other reasons at the discretion of Troostwijk, a Lot can be Allocated to a different User who has placed the highest sustainable Bid.
- 5.5 The User receives confirmation within 6 days after the Auction has closed (not including Saturdays, Sundays and holidays) by e-mail on behalf of the Seller(s) that the Purchase Agreement has been made. If the User does not receive any e-mail within the period mentioned above, this means that his Bid has not been accepted. Troostwijk has the right to provisionally allocate a lot to the Users, subject to the Seller(s) approval, and in this event the Purchase Agreement will only come into existence once Troostwijk has confirmed Allocation.
- 5.6 The risk of the Lot(s) is transferred to the Purchaser at the moment of Allocation. The legal and beneficial title in and to such Lot(s) shall remain with Troostwijk until the Purchaser has paid for the Lot(s) (together with any Mark-up and V.A.T) in full and in cleared funds.
- 5.7 Without prejudice to article 3.1 and for the avoidance of doubt Troostwijk is not a party to the Purchase Agreement but merely mediates in the creation of Purchase Agreements.

Article 6. Guarantees, Claims and Indemnity

- 6.1 LOTS ARE SOLD ENTIRELY "AS IS" WITH ALL BENEFITS AND BURDENS ATTACHED THERETO. TROOSTWIJK DOES NOT MAKE

- 7.3 The Purchaser shall make all payments due under these Terms in full without any deduction whether by way of set-off, counterclaim, discount, abatement or otherwise.
- 7.4 If the Purchaser fails to pay Troostwijk any sum due pursuant to the Purchaser purchasing any Lot(s) at an Auction, including without limitation the Purchase Sum, by the due date the Purchaser shall be liable to pay interest to Troostwijk on such sum from the due date for payment at the annual rate of 4% above the base lending rate from time to time of Natwest Bank plc, accruing on a daily basis until payment is made, whether before or after any judgment.
- 7.5 Payments are intended first to decrease the costs, then the interest charges, then finally the Purchase Sum.

Article 8. Viewing days, Auction days, Delivery days

- 8.1 Whoever enters the buildings and grounds on viewing days or on the day of delivery does so entirely at his own risk. The instructions of Troostwijk and/or persons called in by Troostwijk are to be followed. Subject to article 11.1, Troostwijk and the Seller do not accept any liability for damages arising from the Purchaser or its authorized representative entering their buildings or grounds.

The Purchaser will be required to comply at all times with the health and safety rules of the Seller(s) and/or Troostwijk as the case may be.
- 8.4 Where mechanical handling is required to remove the lots then the Purchaser and/or his contractor must provide proof of adequate liability insurance and (if required) method statements and risk assessments to the satisfaction of the seller(s) and/or their appointed representatives.
- 8.5 Where the Seller(s) or its appointed representative feel that the removal of a lot poses a risk of damage to the building or neighboring assets then the Seller(s) reserves the right to impose a performance bond on the Purchaser or his contractor returnable following safe removal without damage to the property of others.

8.6 The Seller(s) or its appointed representative may stop all work on site without any liability for delays so occasioned if the Purchaser or their authorized representative fails to comply with the above conditions.

Article 9. Delivery

- 9.1 It is the Purchaser's responsibility to collect or arrange for the collection of the Lot(s), at the Purchaser's own cost. If and as soon as the Purchaser has met all his payment obligations in full and in cleared funds, the Purchaser can pick up the Lot(s) in question during the hours and at the place specified by Troostwijk, after having showing a proper identification. This is the Delivery. The Purchaser is obligated to pick up the Lot(s) no later than the date specified in the Specific Terms and Conditions of the Online Auction. Troostwijk can stipulate that (a) certain Lot(s) can be picked up only after Lots have been delivered.
- 9.2 If it appears that a Lot cannot be delivered because of claims by third parties or because of the fact that the delivery would cause unacceptable damage to the buildings or premises where the Lot is situated or for other reasons appears to be strongly objectionable, Troostwijk is authorized to terminate the Purchase Agreement. This termination occurs by e-mail and/or registered letter to the Purchaser at the address supplied by the Purchaser, after which Troostwijk and/or the Purchaser is/are no longer held to restitution of the amounts already paid by the Purchaser to Troostwijk for the purchase of the Lot(s).
- 9.3 The Purchaser whose Lot(s) hinder the picking up of other lots is obligated to see to it immediately after reception of an e-mail or other written documents from Troostwijk that the Lot(s) are picked up. The arranging of possible storage by third parties is at the Purchaser's own charge and risk.
- 9.4 The Purchaser is obligated to dismantle or demolish his Lot(s) and to pick them up. He is completely liable for damage done to the property of others in connection therewith. He is further obligated to indemnify, defend and hold harmless Troostwijk and the Seller against all liabilities, damages, costs, expenses and claims by third parties arising from the dismantling, demolishing and/or the picking up of the Lot(s).
- 9.5 During the dismantling, demolishing and picking of the Lot(s), the Purchaser is obligated to follow the instructions of Troostwijk and/or persons called in by Troostwijk.
- 9.6 The Purchaser is obligated to see to it that he or whoever takes care on his behalf of the dismantling, demolishing or transport has the proper required permits. Troostwijk and/or the Seller cannot be held accountable for the lack of the necessary documents and/or the infringement of governmental regulations in the dismantling, demolishing and/or transport by or on behalf of the Purchaser.
- 9.7 In situations in which it is/appears necessary to dismantle buildings for (an) allocated Lot(s), this can occur only through prior consultation with and written authorization from Troostwijk and under these terms and conditions set in the granting of permission.
- 9.8 If Troostwijk stipulates such, a deposit or performance bond will be made in connection with possible damage to the buildings. If such damage occurs, the deposit will be applied to the payment for repair of the damage, subject to the obligation of the Purchaser to pay compensation for more damage. If no damage results, the deposit will be restored to the Purchaser and/or the performance bond will be released.

In that case Troostwijk is free to allocate the Lot(s) to another party without Troostwijk and/or the Seller being liable for any damages.
- 10.2 In case of termination as set out in article 10.1, Troostwijk may without prejudice to its other rights or remedies require the Purchaser to pay to it by way of liquidated damages a sum equivalent to 25 % of the Purchase Sum to cover administrative, storage, insurance and transport costs, etc. The parties agree that this is not a penalty but a genuine pre-estimate of the loss that would be suffered by Troostwijk in the event of termination pursuant to article 10.1 above.
