PURITY

Internally Flawless I.F.	No inclusions and only blemishes are visible to a skilled grader using 10x magnification
vvs 1 vvs 2	Very very small inclusion (s) very hard to find under a 10x magnification
vs 1 vs 2	Very small inclusion (s) fairly hard to find under a 10x magnification
si 1 si 2 si 3	Small inclusion(s) easy to find under a 10x magnification, not visible with naked eye when looking through the crown or table of the diamond.
1st piqué (P1)	Inclusion(s) easy to find under a 10x magnification, just visible with the naked eye through the crown or table of the diamond and which do not affect the brilliancy.
2nd piqué (P2)	Large and/or numerous inclusion(s) easily visible to the naked eye and which reduce(s) slightly the brilliancy of the diamond.
3rd piqué (P3)	Large and/or numerous inclusion(s) very easy to be seen with the naked eye which reduce(s) the brilliancy of the diamond.
