

BUILDING SITE CONCRETE PLANT: SIPE TORRE 1100

PAN MIXER

Type: TTM

Model: 1100 – turbo

Volume of the mixer: 1100 Liters

Capacity: soft 750 L

Motor power: 19 kW

STRUCTURE

Monolithic carrier structure

STORAGE AND DOSAGE OF CEMENT

Dosator – vertical with vibrator

SILO FOR CEMENT

Type: Monolithic, mounted on the supporting structure

Capacity: 40 tons (diameter 2.500 mm)

Indicator of the amount of cement

Air compressor - built-in

Safety valve

WATER SYSTEM

Water tank with pump 500 liters

COMMAND PANEL

Wall mounted low voltage control panel with display

DOSING ADVITIVE

One additive dosing system - weight with BETONCONTROL access automation

TRANSPORT BELT

h = 4,000 mm

Dimensions: 13,000 x 800 mm

Capacity 300 t / h

Electric motor 7.5 kW
